Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Sunday 18 Jul 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Generally dry and very warm.

Today:
A dry, bright and sunny day across the region. Some fair weather cloud developing during the afternoon, with isolated light showers possible towards the south. Very warm again inland, turning cooler near the coast later with an onshore breeze. Maximum temperature 28 deg C (82 deg F).

Tonight:
A sunny evening, continuing to feel very warm for most areas. Low cloud approaching from the north overnight with patches of drizzle and fog around dawn. Minimum temperature 14 deg C (57 deg F).

Monday:
Staying cloudy through the morning, but fog patches towards the west quickly clearing. Some sunny spells during the afternoon, cooler than yesterday but staying dry. Maximum temperature 23 deg C (73 deg F).

Outlook for Tuesday to Thursday:
Variable amounts of cloud through the period. Isolated showers on Tuesday afternoon, most likely dry on Wednesday and Thursday. Temperatures very warm inland, returning to near normal towards the coast.
